February 15, 2010

The 14th Annual Scientific Meeting Of The Egyptian Hypertension Society (EHS)

April 7-9th, 2010
Fairmont Hotel, Heliopolis
Cairo, Egypt

Hypertension from science to practice...

Chairman of the Meeting

Hany Abdel Razek, MD - Ahmed Magdy, MD, FACC
Hany Ragy, MD, FSCAI

Consultants at National Heart Institute, Cairo

President of the EHS

M.Mohsen Ibrahim, MD, FACC

Prof. of Cardiology - Cairo university

Welcome

Dear Colleagues

We have the honor and pleasure to invite you to the largest annual scientific gathering in the area in the hypertension field. Over years, EHS annual meetings have attracted large number of cardiologists, internists, nephrologists and primary care physicians from the local and international areas. We are challenging a remarkable rise of global cardio-vascular risk, where fighting hypertension with science and contemporary clinical practice are the cornerstones. During this meeting, distinguished local and international expertise will discuss and explore the ever-growing science, innovations as well as emphasize the standard and modern clinical practice for hypertension and related cardio-vascular diseases at escalating knowledge.

Cairo boasts a warm climate at this time of the year. The city's sites and monuments bear witness to the various periods of Egyptian history.

We are sure that your participation and attendance will enrich and contribute to the success of this meeting.
